

fundica

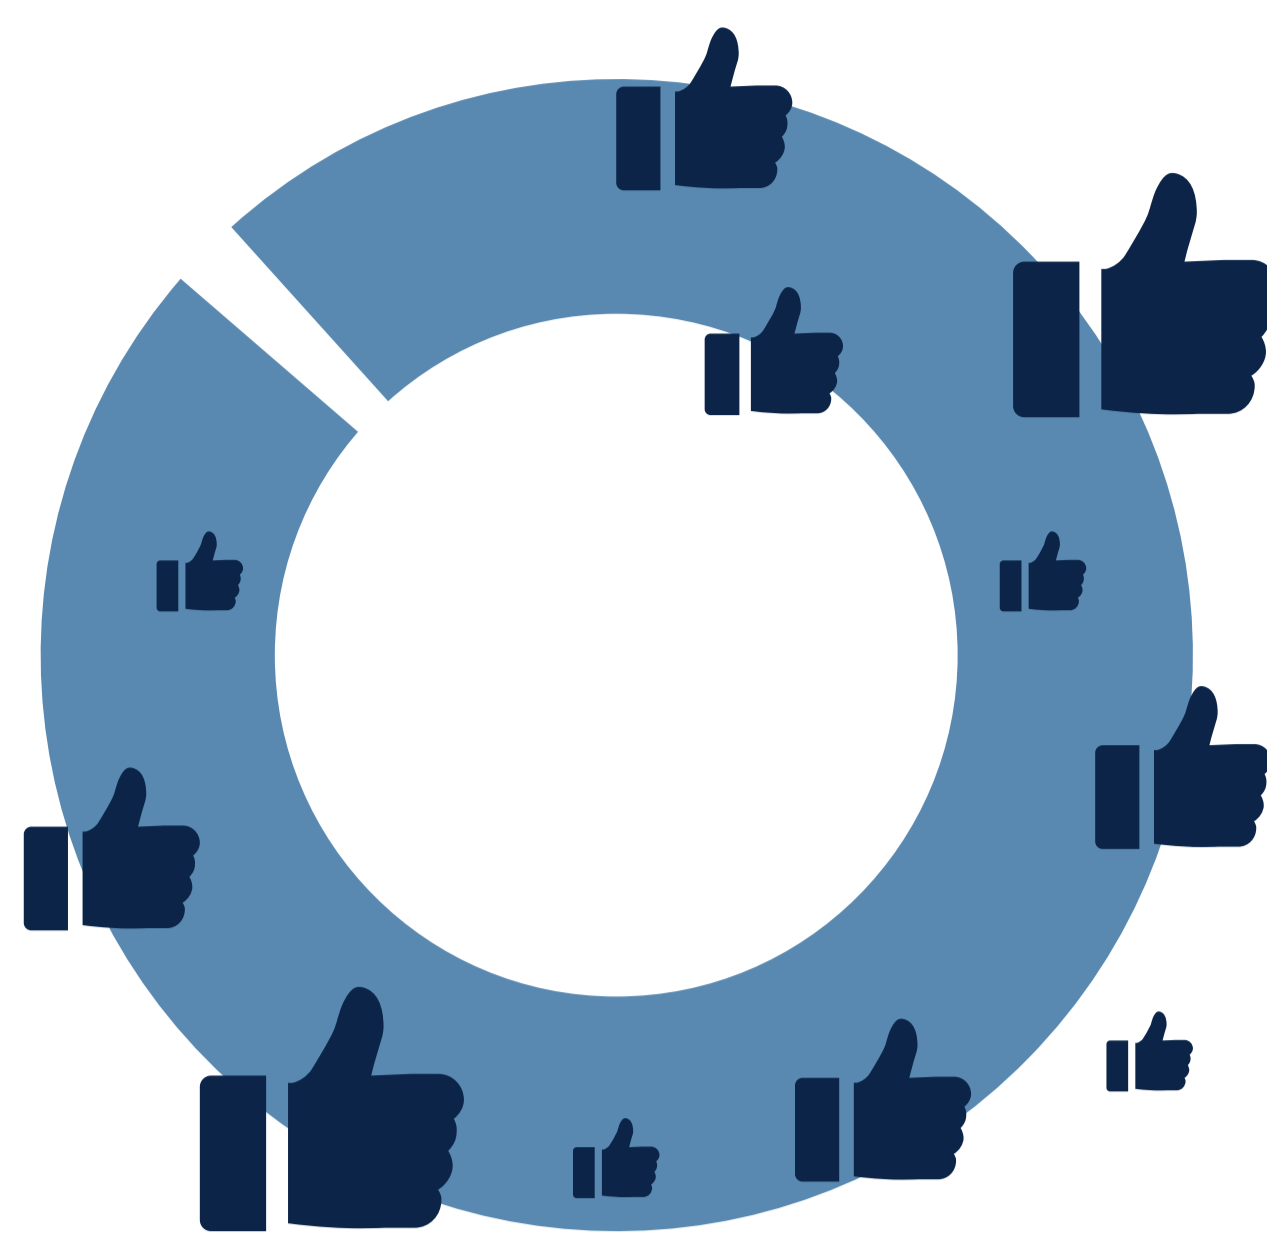

Become a funding champion

At the start of 2021, we asked entrepreneurs using Fundica how they feel about our platform—and digital banking more broadly. Here is what we learned:

98%

of respondents

would recommend Fundica to other entrepreneurs and business owners.

Fundica helps these respondents:

1 Find new funding opportunities

2 Save time and improve their funding search process

Financial institutions should take note, because:

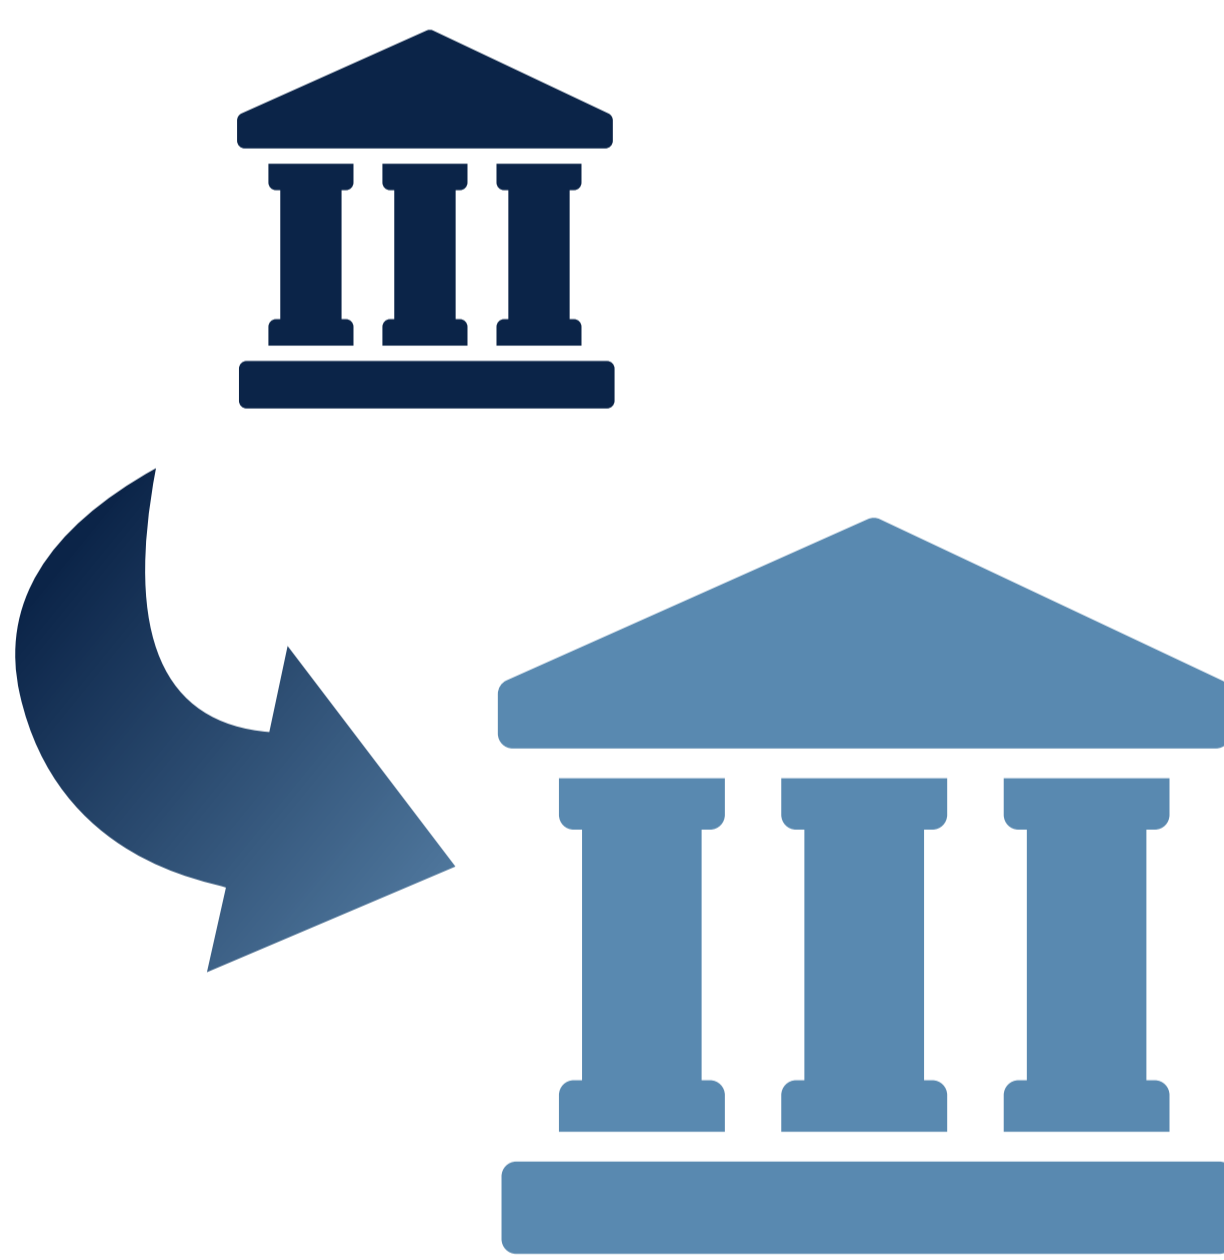

76%

of respondents

also felt their financial institution should help them with government funding.

Plus, according to Finextra Research:

90%

of corporate banking clients

would consider switching banks for a better digital user experience.

Our respondents went as far as to say that:

Fundica should be connected to every single financial institution.

Great service. 10/10!

It gives me everything I need for funding.
